

NEXT GEN ENDPOINT WORKSHOP

sepago. making people love it.

Hybrid work and transformational end user computing experiences

Modern endpoint management protects the organization while enabling employees to work on their own terms. They can work anywhere and at any time, and do so as well as they would in the office, thus improving both satisfaction and productivity (Forrester 2021 The Total Economic Impact™ Of Modernizing Endpoints - A commissioned study conducted by Forrester Consulting™ on behalf of Microsoft, Sept 2021)

In our new world of work the endpoint is the new workplace, and hybrid work is driving the endpoint strategy. The shift to remote and hybrid work represents a shift in how we think about providing people with the tools they need.

Most organizations, 90 percent, anticipate seeing more usage on cloud platforms than ever before. As a result, optimizing existing investments in cloud solutions remains a top priority.

Many organizations, 77 percent of those surveyed, agree on the importance of providing the latest technology to their employees, giving users the devices that they want while giving IT the capability to keep them secure.

Lastly, 80 percent of companies plan to invest in new and emerging technologies, opening the conversation on the most efficient way to deploy, manage, and secure these new endpoints.

Focus on priorities, initiatives & key influences in your hybrid work & end-user computing strategy

Learn about end-user computing strategies, Windows 11 and Windows 365 to drive endpoint modernization with your customers

Work together on showcasing Cloud PC provisioning & management with Windows 365 in production environment

Plan next steps on how we can work together

Why you should attend

Next Gen Endpoints Workshop helps you land the value proposition of Microsoft's cloud solutions for end-user computing with your customers' business decision makers. These solutions include Windows 365, Windows running on Azure Virtual Desktop, Microsoft Managed Desktop, Windows 11 Enterprise and Microsoft Endpoint Manager.

By attending, you can:

- Understand possible hybrid work scenarios and end-user computing goals and objectives
- Gain insights into a possible device landscape for both physical and virtual endpoints.
- Discover Windows 365, Azure Virtual Desktop and Microsoft Managed Desktop solutions that provide a secure desktop experience from virtually anywhere.
- Showcase Windows 365 Cloud PC provisioning and management with Microsoft Endpoint Manager.

What to expect

The next generation of endpoints represents a shift in how our customers are solving end-user computing challenges. Across Information Workers, Frontline Workers, and Temporary / Elastic workforces, our customers are looking for the latest and most innovative solutions to answer those challenges.

We'll work with you to:

- Better understand when and how to leverage Cloud PCs with Windows 365
- How best to manage virtual endpoints across Windows 365 and Azure Virtual Desktop
- Leveraging Windows 11, the most secure OS yet, to enable hybrid work for all employees
- Implementing best practices for endpoint management with Microsoft Endpoint Manager

Who should attend

The workshop is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Endpoint & Device Management owners/decision makers
- Application business owners
- IT Security
- IT Operations
- Security Architect
- Security Engineers

Why sepago?

sepago is an IT management consultancy with a consulting focus on the secure, modern workplace. As a preferred partner for IT security, Endpoint Management and Azure Virtual Desktop, sepago specialises in solutions from Microsoft.

sepago supports its customers not only with regard to the technical implementation of the solution, but also focuses in particular on the change in processes that a new solution brings with it.

With the Next Gen Endpoint Management you can get an overview into different scenarios and learn about Windows 365, Azure Virtual Desktop and Microsoft Managed Desktop solutions that provide a secure desktop experience from virtually anywhere. After the workshop, sepago is the perfect partner to support you with piloting and rolling out those solutions which fit to your organization.

"Hybrid work is here to stay. Find out which of the various Microsoft cloud solutions is the best one for you and your company!"
