This is a **LICENSE AGREEMENT** governing the use of

- b) "Azure Autoscale for Virtual Desktop (WVD/AVD) (aka. MySmartScale),
- c) "Azure VDI-Starter for WVD" (AVD)

between sepago GmbH, referred to below as "sepago", and the user of the software, referred to below as "licensee".

NOTICE TO USER: This license agreement governs the installation and use of the sepago software and documents described herein. sepago licenses the use of the software and documents to the licensee on the basis of this license. sepago does not sell the software or documents to the licensee. Sepago or its third party licensors remains the owner of the software and documents at all times. The licensee agrees that this license is like any written negotiated agreement signed by the licensee. By downloading, copying, installing, or using the software, the licensee accepts all the terms and conditions of this license (as may be varied from time to time in accordance with clause 12). This license is enforceable against any person or entity that installs or uses the software and any person or entity (e.g., system integrator, consultant, or contractor) that installs or uses the software on another person's or entity's behalf.

2. Subject of the agreement

The subject of the license agreement is the computer program and additional auxiliary files and configuration data and associated written materials downloaded from sepago's website or otherwise provided by sepago, and referred to in this license as "software and documents". sepago draws attention to the fact that the current state of the art does not permit the creation of software that works flawlessly in all applications and combinations. The subject of the license is hence restricted to software, which is principally usable in the sense of the program description and the manual.

3. License and fees

3.1 In consideration of payment by the licensee of the agreed license fees and the licensee agreeing to abide by the terms of this license, sepago grants to the licensee a non-exclusive, non-transferable license to use the software on the terms of this license for the licensee's own internal business purposes.

3.2 The license fees are based on a price per active user per month (1a, 1c) or the maximum number of scaled hosts (1b) as measured by the software and reported to sepago. Unless otherwise agreed, license fees are billed monthly, at the end of each month, based on usage at the rates agreed between sepago and licensee.

If the usage is based on a named user basis per month: A named user means an individual who used or is monitored by the solution. An individual will be assigned a unique username or identifier. No more than one individual may use an issued username or identifier, and the sharing of such credentials is expressly prohibited.

If usage is based on scaled hosts, the maximum number of scaled hosts (started hosts) is counted in a calendar month.

3.3 The software sends VM, user, and session-related data to the licensee's Azure Monitor / Log Analytics workspace. The licensee may only copy the software in machine-readable or printed format as is required for the use of the software or as reasonably required for backup purposes. Any further use of the software, in particular for the commercial setup of operational computer

systems for sale to third parties, is explicitly prohibited and requires a separate license agreement.

3.4 The licensee shall:

- (a) keep all copies of the software and documents secure and maintain accurate and up-to-date records of the number and locations of all copies and users

7. Transfer of user rights

The right to use the software can only be transferred to a third party with the prior written permission of sepago and only subject to the conditions of this license. Gifting, hiring out, lending and commercial use of the software are explicitly prohibited, unless agreed otherwise separately in writing by sepago. Sepago may transfer its rights and obligations under this license to another organization, but this will not affect your rights under this license.

8. Duration of the license and termination

This license (as varied from time to time) shall, subject to payment by the licensee of the license fee, apply for as long as the licensee uses the software and documents or until sepago gives written notice to terminate the licenses (for example, if the software is discontinued).
